Electric Vehicles

JP White, Senior Project Leader - Healthtrust

We have an unusual program scheduled for May. It is a subject which uses a number of computers and has raised a number of questions. The topic could be called, "Living with an Electric Vehicle."

Our expert in this area is our own Nashville AITP Chapter President, JP White. JP will tell us everything we ever wanted to know about electric vehicles. This will include why he bought one, the common myths about EV's, communicating with your car through the internet, and much, much more.

JP is not only an expert on EVs, he has served admirably as AITP Nashville Chapter President for several terms. JP has over 25 years IT experience developing and installing large, complex information systems both here and overseas.

JP presently works for HealthTrust, a part of HCA, in Brentwood, TN as Senior Project Leader. He previously was Project Manager - Software Development for five years with Servpro Industries, Inc. JP came to the United States to work for Embraer Aircraft Maintenance Services and was with them for 15 years as Manager Information Systems and IT Consultant. JP has been widely recognized for his IT leadership and management across many technical areas.

JP has a B.S. degree in Computing in Business from the Huddersfield Polytechnic College in England. He is a Certified Scrum Master. JP and his family live in the Hendersonville area of Nashville.

JP White

This should be an interesting session on a popular subject. JP has said he will answer all questions about living with an electric vehicle, even "What do you do if you run out of charge?"
