Office 365

Wesley Stockton - Senior Technical Architect, Pileum Corporation

Microsoft Office has made radically different changes from previous versions of Microsoft Office with the final release of Microsoft Office 365 (Home Premium). The good news is that most of the changes are extremely positive.

Our August speaker will tell us the ten things we need to know about Office 365 and more. Our speaker is Wesley Stockton who is a Senior Technical Architect for the Pileum Corporation.

Founded in early 2002 in Jackson, Mississippi, Pileum is an IT Consulting and Systems Integration firm. They are leading-edge innovators, combining industry knowledge, functional experience, and technology skills to help their clients grow and create extraordinary value in their businesses. Headquartered in Jackson, Pileum also has offices in Nashville, Knoxville, and Birmingham. Pileum has forty-three employees.

Wesley Stockton is located in the Nashville office of Pileum Corporation and has been with Pileum for more than three years. He started with Pileum as a Senior Systems Engineer in the Jackson, Mississippi, office. Wesley previously was an Engineer with Venture Technologies in Ridgeland, MS, and a Systems Administrator with Butler Snow in Ridgeland. Wesley has over ten years of IT experience.

Wesley has a B.S. degree in Information Technology from the Mississippi State

University. He also holds the MCSA certification in Office 365.

Wesley and his family, they have two children less than two years of age, live in the Franklin, TN area. Wesley says he plays golf when he has a chance after chasing his kids.

Wesley Stockton

This should be an interesting program to learn more about Office 365 from a qualified speaker.
