5:30 - 6:00 Social/Networking
6:00 - 6:45 Dinner
6:45 Business Meeting & Speaker

Personal Internet Security
JP White - Senior Project Manager, HealthTrust

We all use the Internet and hopefully have not had a security problem. Our July program is about Internet security and the various ways to protect ourselves.

Our speaker is JP White who has over twenty-five years IT experience developing and installing large, complex information systems both here and overseas.

JP will discuss past and present internet security attacks. He will discuss passwords and why they provide insufficient security. JP will outline personal security strategies and products that actually enhance security. He will poll the attendees as to what they do on the internet and which websites they believe they need to protect the most and outline which ones really matter the most.

JP presently works for HealthTrust, a part of HCA, in Brentwood, TN as Senior Project Manager. He previously was Project Manager – Software Development for five years with Servpro Industries, Inc. JP came to the United States to work for Embraer Aircraft Maintenance Services and was with them for fifteen years as Manager Information Systems and IT Consultant. JP has been widely recognized for his IT leadership and management across many technical areas.

JP has a B.S. degree in Computing in Business from the Huddersfield Polytechnic

College in England. He is a Certified Scrum Master. JP and his family live in the Hendersonville area of Nashville. He has also served admirably as AITP Nashville Chapter President for several terms.

This should be an interesting session on a popular subject.

JP White
